

The Value Adding PMO

Aims & Objectives

This course will provide PMO practitioners with the practical skills to positively transform your PMO. With sessions around leading and influencing senior stakeholders, as well practical and thought-provoking sessions on methodologies such as Agile, this course can help your PMO soar to new heights and deliver a new level of value.

Prerequisites: None but aimed at new or aspiring PMO Leaders
Suitable for e/P3/PMO leaders
Suitable for all PMO contexts (IT/Engineering/Strategy)

Outcomes

The Project Manager should leave the course with a clear understanding of the key components of PMO value, including:

- Why Planning is a prerequisite for success
- The value of clear and regular communication with senior leaders
- The PMOs role in project/program, portfolio assurance
- Understanding the strengths of various PM methodologies
